

**ORAGENICS**

## Oragenics, Inc. Joins With Chiropractors Buying Group To Distribute **EvoraPlus** To Chiropractic Offices Nationwide

*Chiropractors Buying Group To Represent Oragenics' Acclaimed Probiotic  
Oral Care Mint As A Complementary Health And Well-Being Product*

### For Immediate Release

**Tampa, FL** (January 26, 2010) – Florida-based biotechnology company **Oragenics, Inc.** (OTCBB: ORNI [www.oragenics.com](http://www.oragenics.com)) has signed a distribution agreement with Chiropractors Buying Group (CBG) to represent Oragenics' fast-growing and critically acclaimed probiotic oral care mint **EvoraPlus** to chiropractic offices nationwide.

"There is an important link between oral care and physical well-being. As a result, today's chiropractors want to offer their clients innovative, proven products that address oral care within their practices. **EvoraPlus** is such a product. CBG is fully committed to bringing our clients only the best products in the health and well-being category. Oragenics has created an easy-to-use probiotic mint that is effective in whitening teeth and alleviating bad breath while it supports gum and tooth health," said David Kapla Director of Sales and Marketing, Chiropractors Buying Group.

"Chiropractors are at the forefront of identifying new advances in health management. We are proud to be working with Chiropractors Buying Group in bringing **EvoraPlus** to this important group of health industry professionals. We are confident that our product will be enthusiastically embraced by their clients," said Gerry David, Executive Vice President, Sales and Marketing for Oragenics.

**EvoraPlus'** probiotics are specifically designed for complete oral care and offer a revolutionary new application of probiotics, which have traditionally been used to support digestive and immune health. The industry's first 100% natural all-in-one oral care probiotic mint, **EvoraPlus** gently whitens teeth and alleviates bad breath while supporting gum and tooth health.

**EvoraPlus** was developed by Dr. Jeffrey Hillman, D.M.D., Ph.D., and chief scientific officer at Oragenics, Inc., during his more than 25 years of research in oral biology, which began at the Harvard-affiliated Forsyth Institute in Boston and continued at the University of Florida. Through his research, Dr. Hillman found three strains of beneficial bacteria that help maintain an optimal balance of beneficial bacteria in the mouth, naming the patent-pending blend ProBiora3™, the active ingredient in **EvoraPlus**. 100% natural, **EvoraPlus** is made in the USA in an FDA registered and GMP certified facility ensuring both the highest quality ingredients and complete integrity.
